Outsourcing

WORKING TEAM.

We are a multidisciplinary team formed by professionals strongly engaged in work quality, in statement of principles and protection of information; we can ensure high quality services due to more than 15 years of experience in the areas of consultancy and audit both in public and private companies.

MAIN CLIENTS AND SERVICES.

Our clients carry out activities in various areas of our national economy: Commerce, Industries, Education, in social action through Corporations, City Halls, Cooperatives, governmental and non-governmental foundations and organizations. They are oriented basically to Telecommunications, Construction, Investment, seafood product extraction and marketing, farming and forest production and marketing.

Our services meet almost all business needs: Financial Statement Audits, Operational Audits, Tax and Labor Audits, Management Analysis, Due Diligence, etc. Tax consultancy includes telephone enquiries, tax strategy definition and monthly review.

Our ERP software allows us to save, maintain and process our clients' accounting and remuneration records and to generate management reports permanently.

INTERNATIONAL FINANCIAL REPORTING STANDARD (IFRS).

Our company is prepared to assist our clients in the adoption and implementation of the International accounting standards (IFRS) which will come into force soon.

Presently we have professionals with a Master's in Accounting and Auditing with a major in International Accounting; others hold a Diploma in IFRS having been trained abroad, in countries where this standard is in progress. Others are International Accounting Professors in several universities, and/or they conduct related seminars, training courses and lectures.
